the oklahoma city bombing intentional crashing of airliners on september 11 2001 and anthrax attacks in the fall of 2001 have made americans acutely aware of the impacts of terrorism these events and continued threats of terrorism have raised questions about the impact on the psychological health of the nation and how well the public health infrastructure is able to meet the psychological needs that will likely result preparing for the psychological consequences of terrorism highlights some of the critical issues in responding to the psychological needs that result from terrorism and provides possible options for intervention the committee offers an example for a public health strategy that may serve as

a base from which plans to prevent and respond to the psychological consequences of a variety of terrorism events can be formulated the report includes recommendations for the training and education of service providers ensuring appropriate guidelines for the protection of service providers and developing public health surveillance for preevent event and postevent factors related to psychological consequences

with reference to gorakhpur maharajganj and deoria districts of uttar pradesh a study

the overall patterns of research findings demonstrate that stress such as that which characterized gulf war deployment combat and return home is a contributing factor to many illnesses this book argues for greater understanding of the complexity of symptoms and potential causes of combat related stress

the book achieves its goal of encouraging the reader to think broadly about how the consequences of violent victimization can be measured understood and prevented the authors also achieve their goal of emphasizing the need for multiple research methods and multiple theoretical perspectives for understanding the effects and implications of violent crime the book would certainly be a useful resource for students studying psychology or criminology and is likely to be of interest to professionals who work with victims of violent crime crime prevention and community safety an international journal what are the effects that violent crime has on our everyday lives both in terms of the individual victims and their larger community this unique text draws from both the fields of criminology and psychology to provide a comprehensive examination of the two major areas that are most significantly effected by violent crime the crime victims themselves and the larger sphere of their families friends neighborhoods and communities beginning with a discussion of the how we measure and study violent victimization the authors r barry ruback and martie p thompson look at the immediate and long term impact violent acts has upon the direct victims social and psychological consequences of violent victimization examines secondary victims family members neighbors friends and the professional involved with investigating and prosecuting the crime and helping the victim and also impacts of violent crime on neighborhoods and communities the authors conclude with recommendations of effective interventions that can be made at the levels of the individual the community and the criminal justice and mental health systems this book s one of a kind focus on both the psychological and social impact of crime makes it an invaluable supplementary text for criminal justice and criminology courses dealing with victimization violent crimes and the criminal justice process the book will also interest professionals in victim services crime prevention criminal justice and social work

color coded terrorism alerts are issued then lifted with no explanation false alarms can like crying wolf desensitize people to a real need to be on alert and that psychic numbing is just one effect discussed in this book by fifteen psychologists teamed up to take a critical look at the u s war on terrorism these experts are led by the chairman of an american psychological association task force charged with pinpointing the effect of our anti terrorism efforts on american mental health together they present the most up to date and intriguing picture we have of the fallout on our own people from our own

programs the text spotlights stereotyping of foreigners increased domestic hate crimes fear depression and helplessness as well as increased militancy and belligerence especially among students perhaps most disturbing in the land of the free we also see increasing acceptance of restrictions on our personal freedoms and acceptance of human rights violations color coded terrorism alerts are issued then lifted with no explanation false alarms can like crying wolf desensitize people to a real need to be on alert and that psychic numbing is just one effect discussed in this book by fifteen psychologists teamed up for a critical look at the u s war on terrorism these experts are led by the chairman of the american psychological association task force charged with pinpointing the effect of our anti terrorism efforts on america s mental health together they present the most up to date and intriguing picture we have of the fallout on our own people from our own programs the text spotlights fueled stereotyping of foreigners increased domestic hate crimes fear depression and helplessness as well as increasing militancy and belligerence especially among students perhaps most disturbing in the land of the free our attention is drawn to growing acceptance of restrictions on our personal freedoms and acceptance of human rights violations contributors to this collection aim to give us a reality check looking at what our national reactions to terrorism have been how those reactions have affected the psyche of our people and whether this has made us stronger or weaker and more or less likely to be the target for future attacks

this text presents the wide range of traumatic experiences that sometimes lead to post traumatic stress disorder whether neurological in origin e g alzheimer s disease parkinson s disease arising from a road traffic collision e g head or brain injury natural or unnatural disaster or from trauma arising from chronic disease or illness e g cancer the treatment process involves clinical interviews and psychological and neuropsychological testing that requires detailed knowledge of neuroanatomy to understand the brain and its functions medico legal reporting is now a significant part of clinical work and is highlighted by courtroom etiquette

this is much more than a story of a single case it provides a panoramic overview of the role of work in women s lives a succinct history of employment discrimination law and a penetrating analysis of the evolution of our views of sexual harassment in the workplace karen o connor author of women politics and american society after vinson nothing was the same cochran does a masterful job of setting the case in its historical context and exploring its legal impact judith a baer author of our lives before the law constructing a feminist jurisprudence cochran is an exceptional raconteur and his book is comprehensive thorough and wonderfully forward looking nancy levit author of the gender line men women and the law

working paper literature survey of social research on the social implications of unemployment in australia reviews research on health and psychological aspects of unemployment and its effect on crime rates finds that the unemployed suffer more mental health illnesses but that the link with deteriorating physical health and increasing mortality and crime is weak bibliography graphs
